

GPEI Financing 2013-18

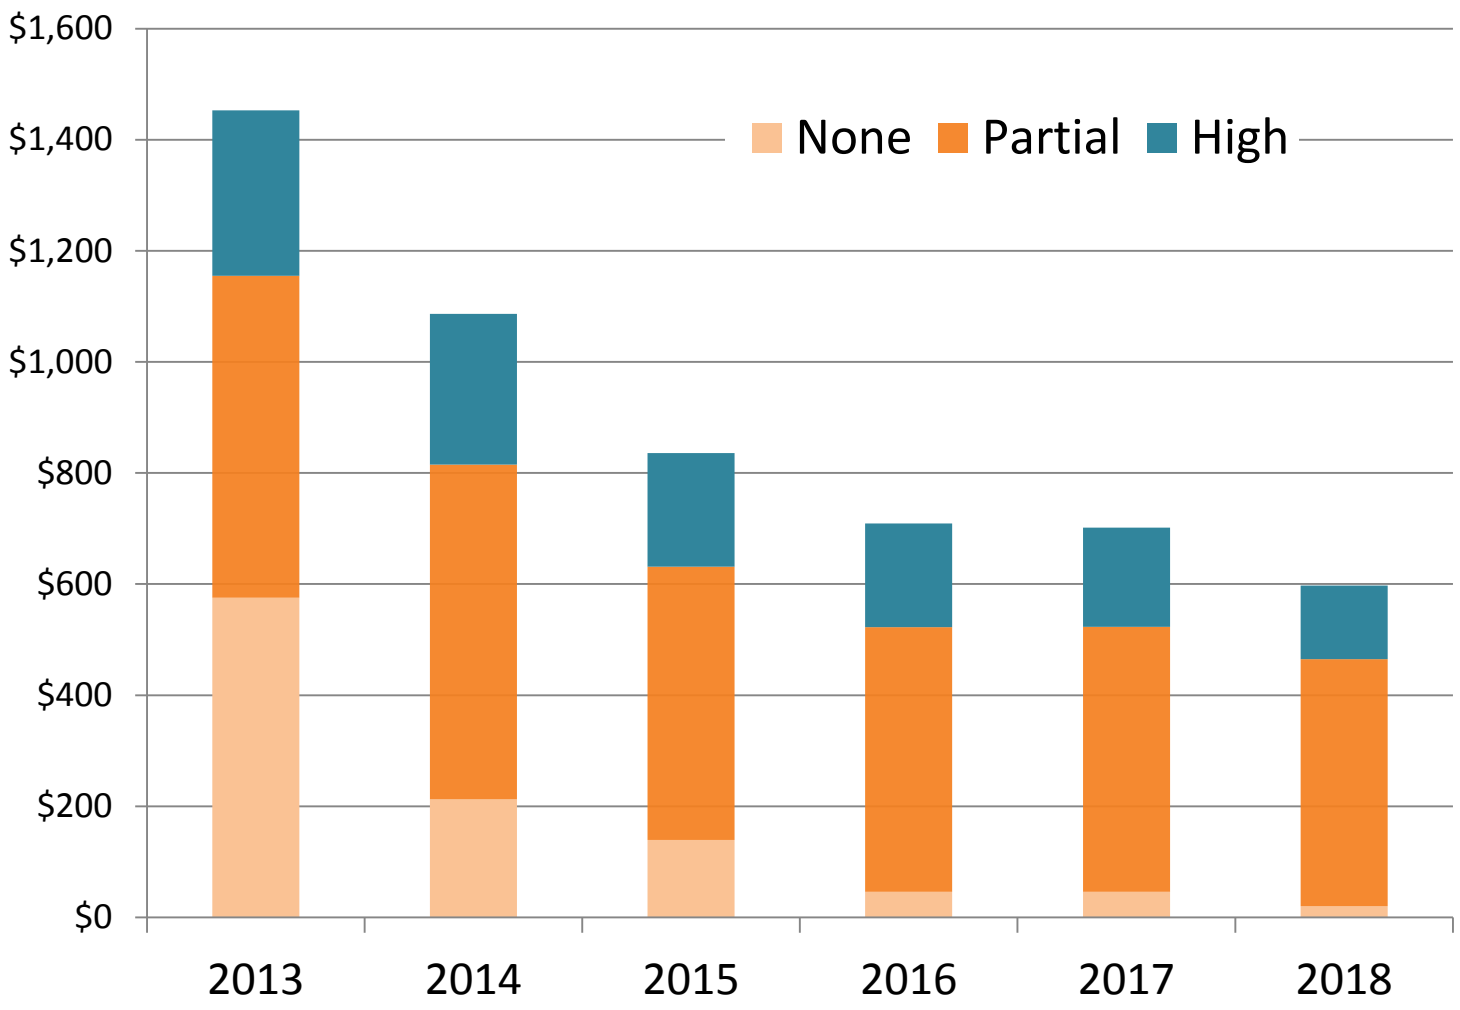

- funding, gap & flexibility
- 2013 budget vs. spend (WHO)
- cashflow 2014
- what is/isn't included in FRRs?
- status of pledges

GPEI Funding Gap

Funding Gap USD millions	2013-2018 Feb 2013 (pre-Summit)	
Funding Required (FRRs)	\$	5,525
Confirmed Funding	\$	395
Pledged Funding	\$	-
Projected Funding	\$	3,100
'Best Case' Funding Gap	\$	2,030

Total Contributions 2013-2018

by degree of flexibility and status (USD millions)

2013 GPEI expenditure

WHO actual expenditures against budget

DRAFT

WHO 2013 external resources requirements per FRR: \$557M

TOTAL GPEI 2014 FRRs: \$988M (\$1.053B including PSC)

2013 expenditure from WHO financial systems as of end-March 2014:

- Global WHO expenditures and encumbrances against Polio workplans: \$479M
- Global WHO expenditures /encumbrances against Polio in RI workplans: \$5M*
- Expenditure on WHO FRR costs by Government of Nigeria: \$22M
- Other in kind / in service contributions: \$3M

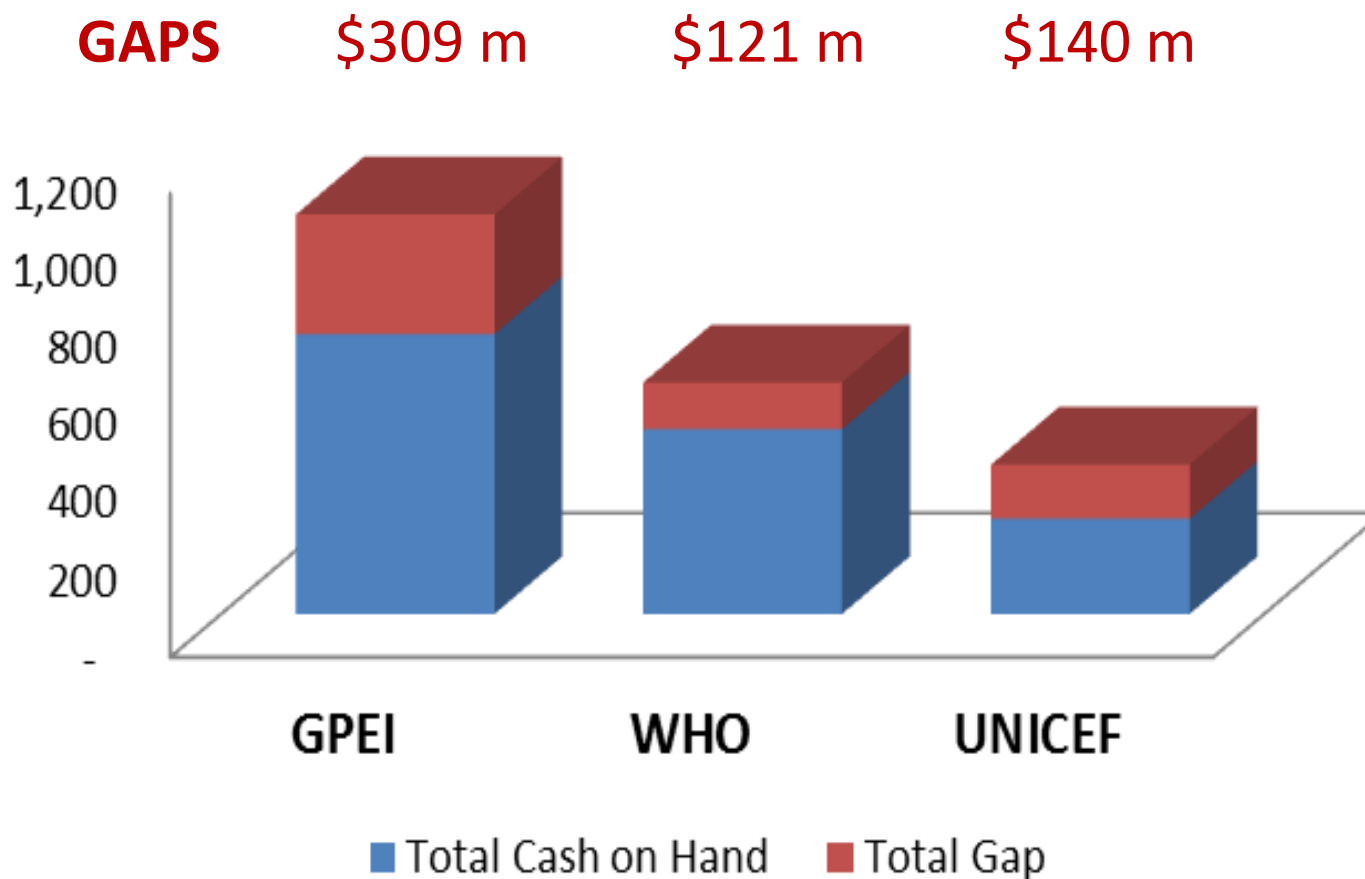

End of March estimate of 2013 WHO expenditure: \$509M

Notes:

- Similar information to be reported by UNICEF
- Once WHO information is verified by WHO Accounts, details of expenditure by country and budget category will be available
- WHO Middle East outbreak expenditures were funded by countries from other local sources and are not fully reflected in this statement
- * Polio expenditure in RI workplans may be understated as some polio contributions to RI may be done under non-polio tasks;

GPEI Cash Gap for 2014 as of April

all figures in USD millions

Note: \$48 M for IPV introduction costs through GAVI included in GPEI total Gap

Cash Gap for SIAs and Surveillance (2014)

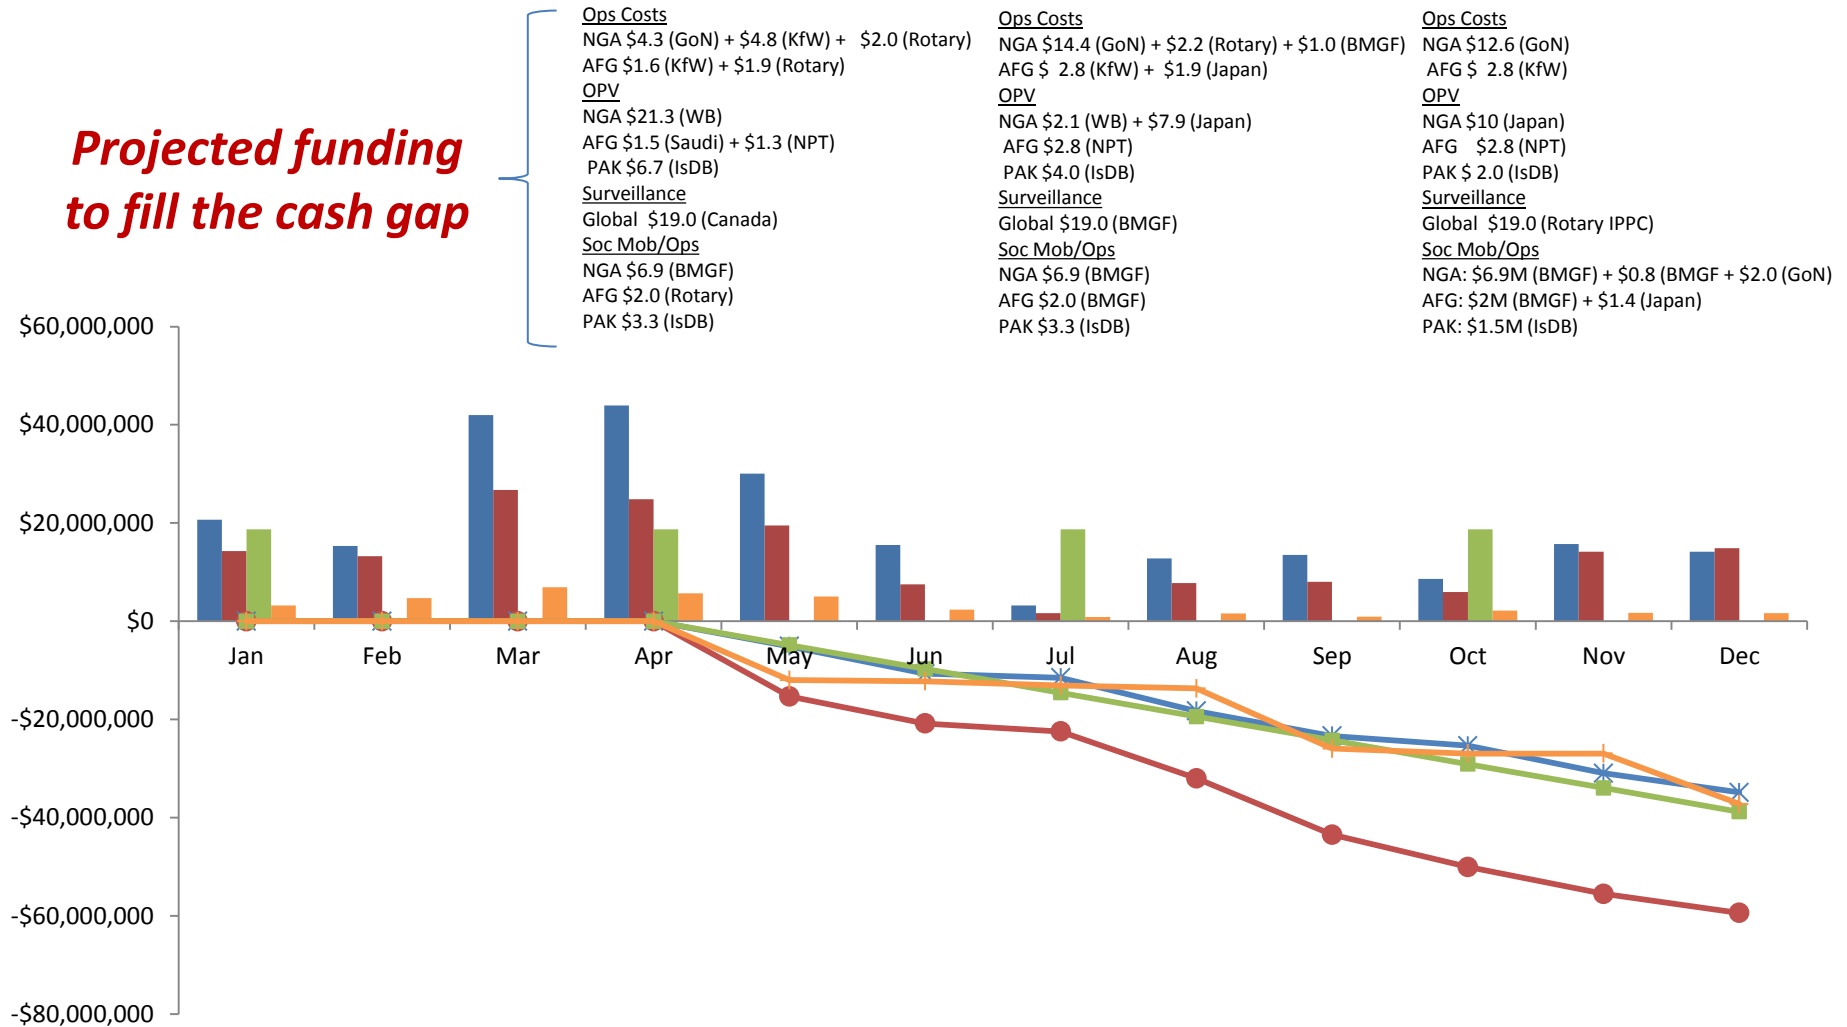

all figures in USD millions

Closing the Cash Gap (2014)

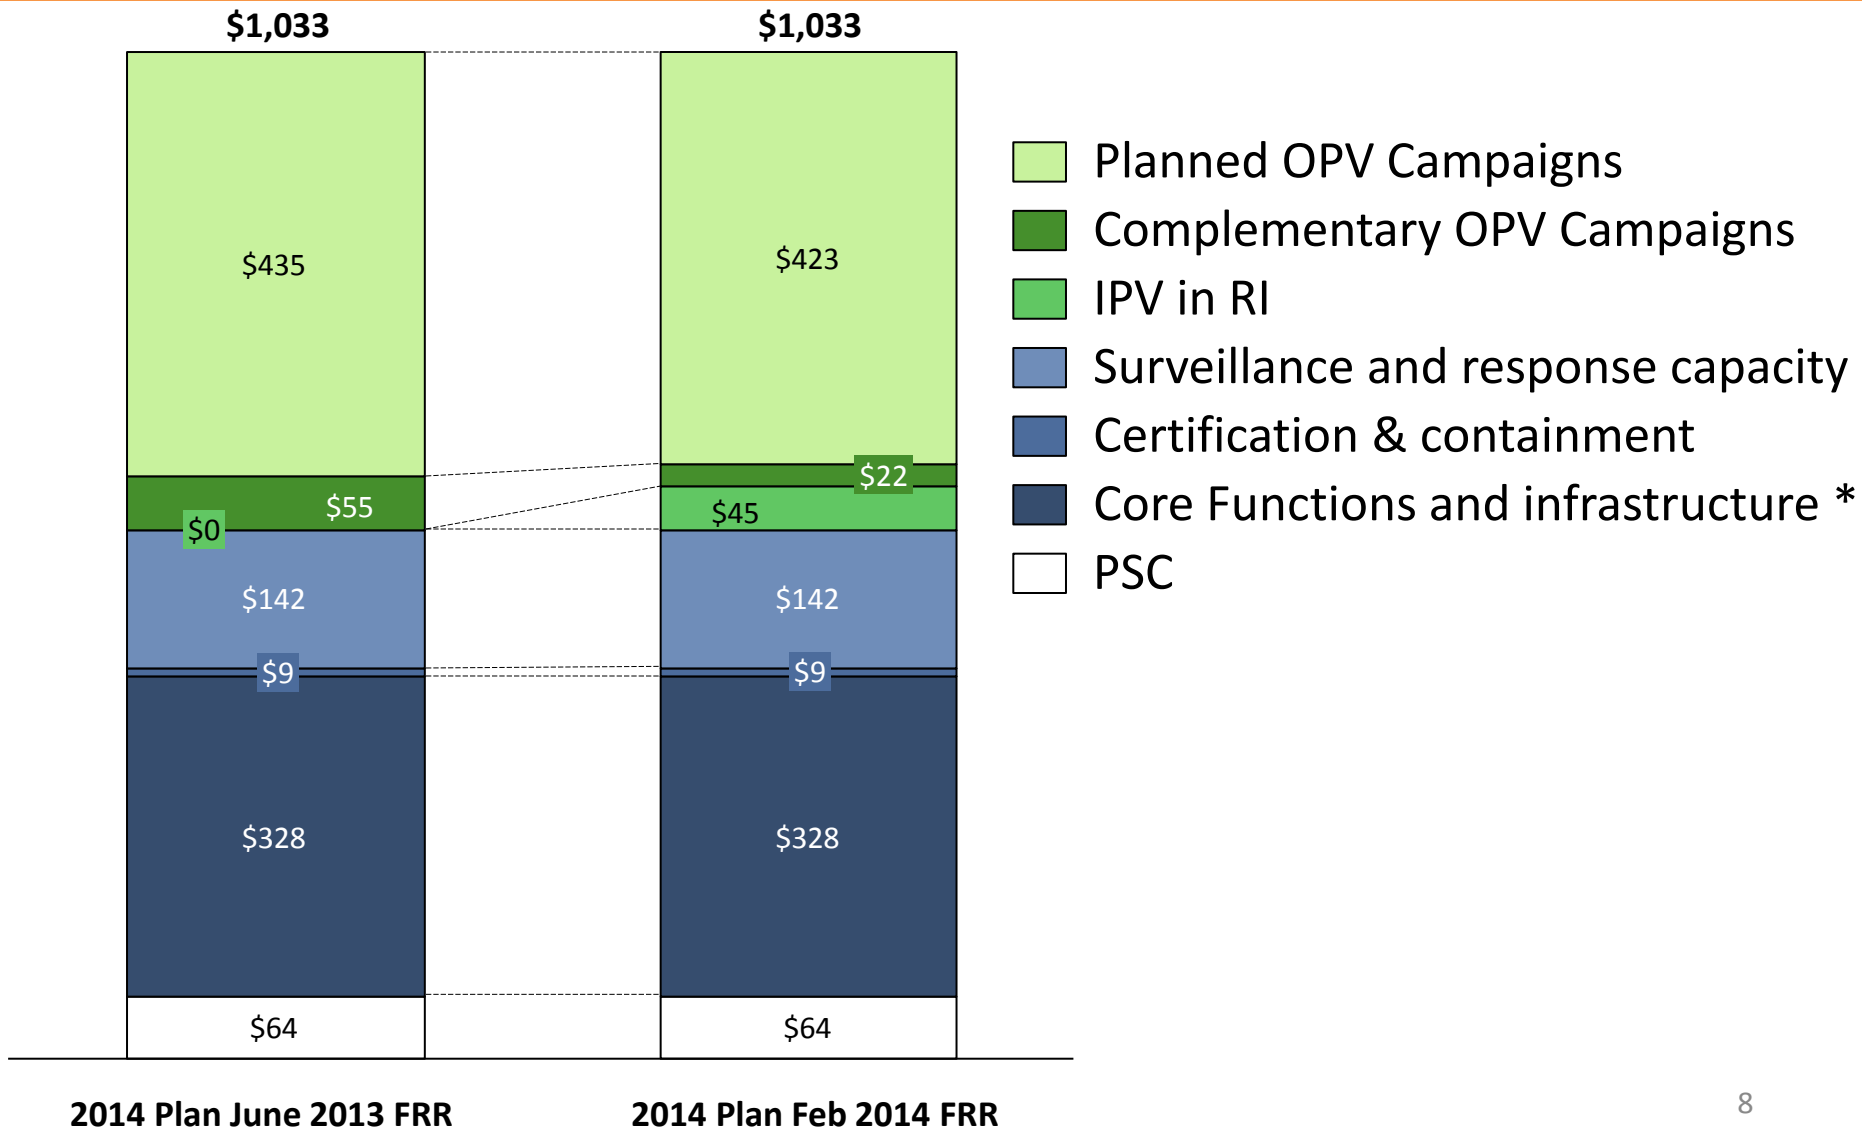

all figures in USD millions

Projected funding to fill the cash gap

What's included in the FRRs?

2014 FRR evolution June '13 vs. Feb'14 (USD millions)

2014 SIA plans from Feb 2014 FRR

Supplementary immunization activity schedule, 2014

(All activities are expressed in percentages and categorization includes cVDPVs)

Countries with poliovirus within the last 6 months

Countries with poliovirus between 6 and 12 months

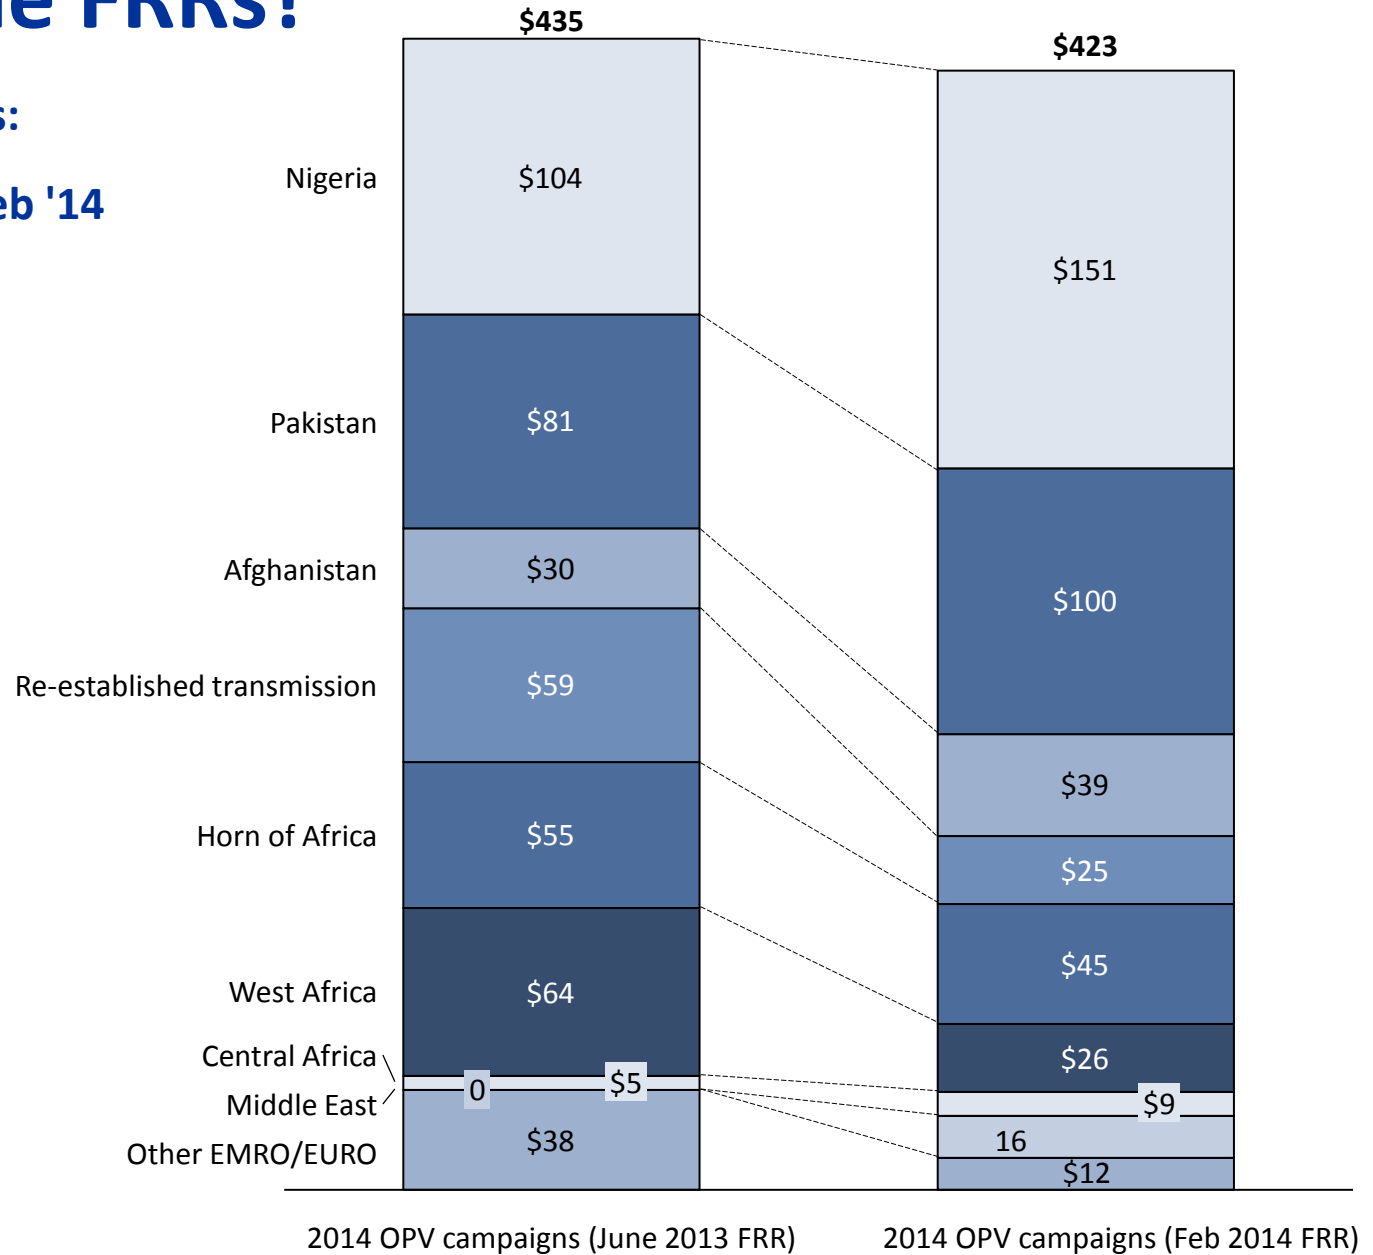

Countries with no poliovirus for more than 12 months

Non-Costed Activities

*Removing these NIDs from option 2 would reduce the budget by \$7m (\$551m total)

What isn't included in the FRRs?

Known costs (estimates)

- SIAs for 2nd half of 2014 not yet confirmed: \$60M
 - Potential new SIA in future years (2015-2016) : \$100M
 - IPV introduction updates for 2015-2018: \$100M
 - Plans for IPV use in campaigns not yet finalized: TBD
 - Surge support beyond 2014 (est. for 2015-2018): \$60M
- POTENTIAL TOTAL: \$320(+)**

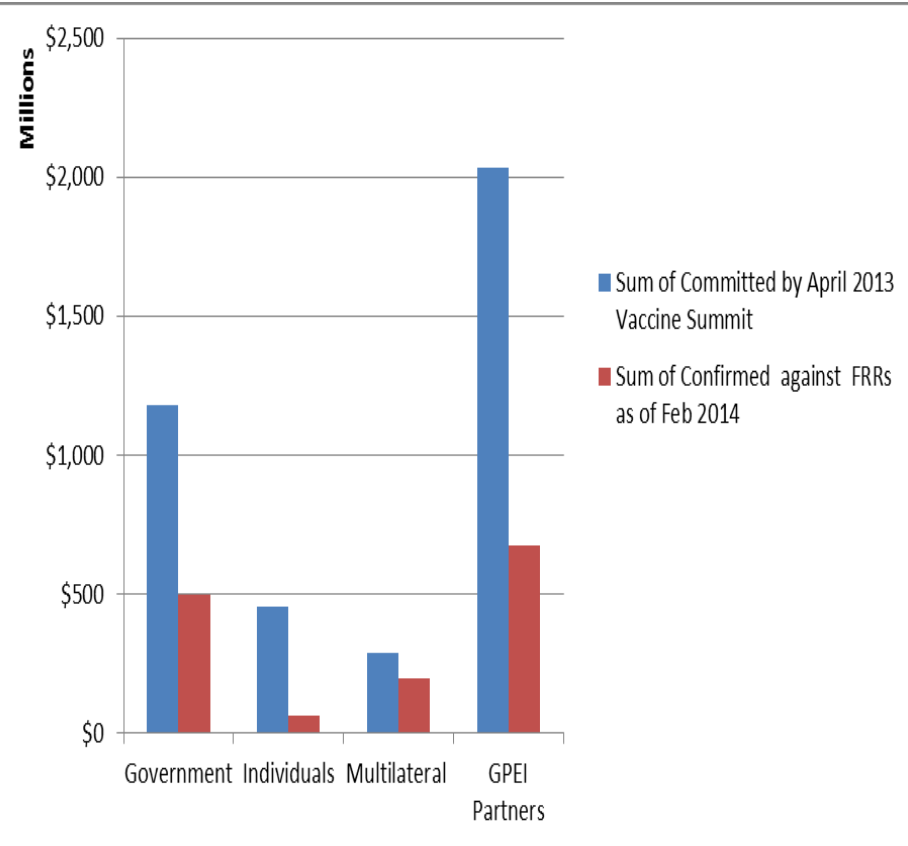

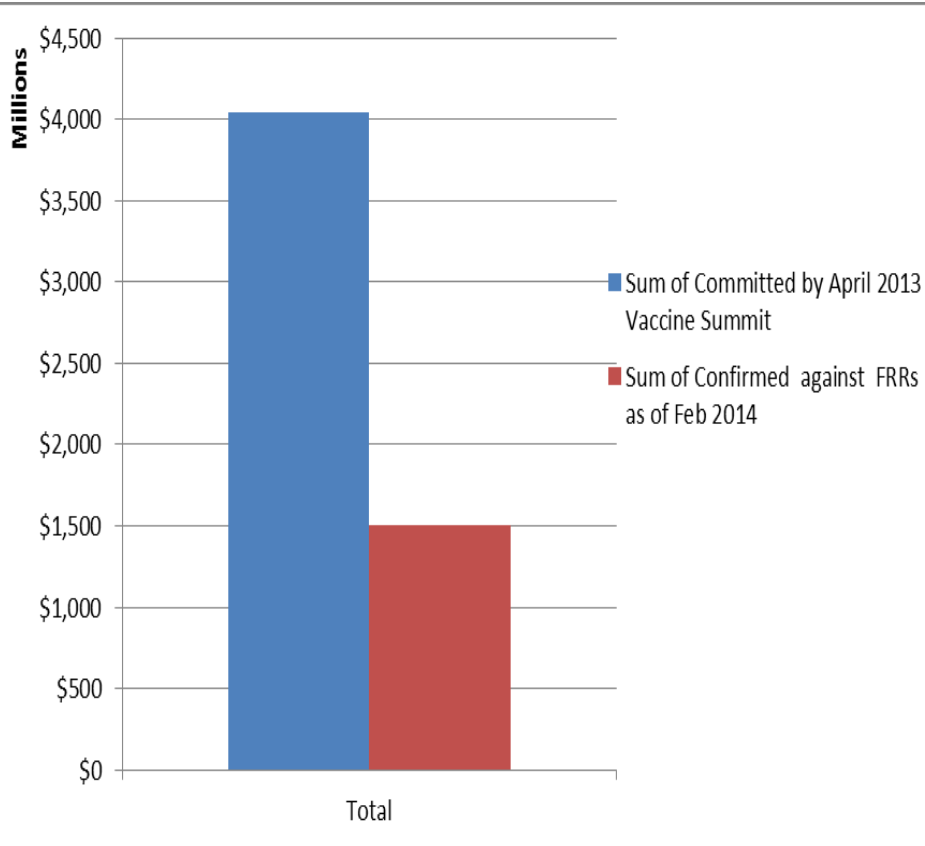

Status of Vaccine Summit Commitments

as of February 2014

Donor	Pledge	Received as of Feb 2014	
		Amount	%
BMGF	\$ 1,800.00	\$ 364.00	20%
Private philanthropists	\$ 335.00	\$ 51.00	15%
Norway	\$ 252.00	\$ 12.00	5%
Canada	\$ 244.00	\$ 65.00	27%
UK	\$ 457.00	\$ 294.00	64%
Abu-Dhabi Crown Prince	\$ 120.00	\$ 12.00	10%
Germany	\$ 152.00	\$ 54.00	36%
IDB	\$ 227.00	\$ 137.00	60%
UNICEF	\$ 65.00	\$ 23.00	35%
Nigeria	\$ 40.00	\$ 23.00	58%
Others	\$ 351.00	\$ 468.00	133%
TOTAL	\$ 4,043.00	\$ 1,503.00	37%

Status of Vaccine Summit Commitments

as of February 2014

Reasons for unrealized pledges

- Donor governments' budget cycles
- Political changes in donor governments
- New donors need to establish mechanisms for transfer and accountability of funds
- Donors have to fundraise from their own constituencies before releasing them to GPEI
- ***Many donors continue to release funds annually based on demonstrated progress***

Filling the funding gap

- Deepen support from existing donors
- Enhance targeted resource mobilization to new donors (EU, EU states, Gulf States)
- Advocacy to increase domestic resources
- Strengthen GPEI resource mobilization capacity with staff secondments

Extra Slides

Status of Vaccine Summit Pledges

DONOR	Funds Committed by April 2013 Vaccine Summit	Confirmed Funding against the GPEI FRRs, as of February 2014	Difference between pledges and received	Percentage of pledge realised	Notes and possible PSC action
Bill & Melinda Gates Foundation ³	\$1,800	\$364	\$1,436	20%	Does not include 107 million funds provided to Rotary for match grant
Private Philanthropists/High Networth Individuals	\$335	\$51	\$284	15%	Funds released every six months
Norway	\$252	\$12	\$240	5%	Marked as on track as \$158 million being finalised with GAVI for IPV Balance of core support to WHO to be received as part of WHO organization wide funding. (expected Sept 2014)
Canada	\$244	\$65	\$178	27%	Canada releases funding annually. High conditionality imposed by new laws. 2014 funding being finalised this month (30 million CAN) for the first time this year Canada has agreed to 20 million of contribution being flexible PSC action - advocacy to reduce for fragmented funding -
United Kingdom	\$457	\$294	\$163	64%	Remainder is the bilateral funding for countries concept note being prepared by DFID. High risk 1) transfer of flexible funding to GAVI from WHO 2) bilateral portion is non FRR reducing 3) portion of funding is challenge 4) UK elections in 2015
Abu Dhabi-Crown Prince	\$120	\$12	\$108	10%	Meeting planned in April by BMGF
Germany	\$152	\$54	\$98	36%	High level advocacy for longer term funding and less fragmentation. Risks of delays in implementation following staff changes.
Islamic Development Bank/ Government of Pakistan	\$227	\$137	\$90	60%	Need update
UNICEF	\$65	\$23	\$42	35%	Check with UNICEF
Nigeria	\$40	\$23	\$17	57%	PSC action Advocacy needed with GoN
Others	\$351	\$468	-\$117	133%	Rotary and US have exceeded commitment. Rotary made post vaccine summit commitment Main action for these donors is to work on new pledges for 2015 onwards
TOTAL	\$4,042	\$1,504	\$2,538
