¹ The FY2016 Congressional allocation is US\$ 228 million. As of 1 April 2016, only the allocations to WHO & UNICEF from CDC and USAID against the GPEI's 2016 budget are currently counted against the sub-total line for the G7. The full Congressional allocation will be reflected at the end of 2016. As of 2013 onwards, consistent with UN revenue recognition policy, contributions are recorded to the channel from which they are received. While the full Congressional allocation is reflected in 2013-2015, the sub-total line for the G7 reflects the actual amount received directly by the two implementing agencies, WHO and UNICEF. For 2013-2015, the WHO allocation also includes funding for the Emergency Operations Center (EOC).

² The UK committed £300 million to polio eradication for the 2013-2018 period comprised of "core" and "match" funds. The figures for 2016-2018 include £28 million in "match" funds as well as £27 million to Gavi, the Vaccine Alliance for IPV procurement. The UK also provided an additional £13.8 million for the 2013-2014 Horn of Africa and Middle East outbreaks.

³ The 2009 contribution from Germany includes €5 million to the Government of India (combination of a loan/grant), which the Government is using to strengthen cold chain and information systems. The 2012 contribution includes €5 million for Tajikistan for rehabilitation of polio victims further to the 2010 polio outbreak. Although both contributions lie outside of the GPEI budget, they are recognized in Germany's total contribution to the Initiative, but are not included in the total contributions line for G7 countries. Germany also provided over €13 million in 2013-2014 for the Middle East outbreak in addition to current disbursements under its €105 million 2013-2017 pledge.

⁴ Since 2011, Japan has supplemented its traditional grant financing with innovative financing in partnership with the Bill & Meinda Gates Foundation (BMGF). Under this 'loan conversion' model, Japan has provided development assistance loans to the governments of Pakistan (approximately \$67 million) and Nigeria (approximately \$70 million) for vaccine and operations costs. If performance criteria are met, the BMGF will repay the loan credit to JICA on behalf of the Pakistani and Nigerian governments, in effect converting the loan to a grant. Additionally 2012 reflects US\$8.03 million released by the Government of Pakistan using funding from the Government of Japan provided through the Counter Value Fund mechanism, as type of non-project grant id.

⁵ Norway's figures reflect all confirmed funding to Gavi, the Vaccine Alliance (2013-2019) and funding to WHO (2013-2015).

⁶ The \$355 Million Challenge Grant from the Bill & Melinda Gates Foundation to Rotary International is reflected in both the Bill and Melinda Gates Foundation and Rotary International 2008-2012 contribution lines, though the contribution is only counted once in the subtotal line. At the 2013 Vaccine Summit, the Bill and Melinda Gates Foundation pledged US\$ 1.6 billion, which includes direct funding to WHO, UNICEF and Gavi, the Vaccine Allance as well as challenge funding to third paties to leverage additional contributions. As of 1 April 2016, US\$ 1106.33 million has been directly granted to WHO, UNICEF and Gavi for 2013-2018, unclear pledged up to \$175 million for 2013-2018, which will be matched 21 by the Bill & Melinda Gates Foundation. Contributions from both under this match schedule and when funds are confirmed. Redary Foundations to the GPEI are through the Redary Foundation.

⁷ For 2011, the Foundation also provided \$430,000 to improve the quality of life for children suffering from polio-related diabilities in Pakistan during the 2010 polio outbreak.

⁶ The US Centers for Disease Control and Prevention, the Bill and Melinda Gates Foundation, Rotary International and the United Nations Foundation provided third-party funding to "buy down" World Bank loans to countries for the purchase of oral polio vaccine, in effect turning the loans into grants. The figures represent the Bank's portion only as contributions from Rotary International , Bill & Melinda Gates Foundation , US CDC and United Nations Foundation are counted in their own contribution line.

⁹ 'Other' includes contributions from AGFUND, British Airways, Chevron (Angola), Dangote Foundation, SCB/Brunei + Polio Points Initiative, Millennium Fund, Sanofi Pasteur, Saudi Arabian Red Crescent Society, Smith Kiine Biologicals, Total E&P (Angola) and UNICEF National Committees (until 2011).

¹⁰ The UNICEF 2010 figure includes US\$20 million in Regular Resources for oral polio vaccine plus an additional US\$15.12 million in other UNICEF Resources. For 2011, US\$15 million in Regular Resources and US\$ 2.2 million in other UNICEF Resources. For 2012, US\$ 32.92 million in Regular Resources and US\$ 6.80 million in other UNICEF Resources are pending).

¹¹ The Government of Pakistan took out a loan from the Islamic Development Bank worth US\$227 million for 2013-2015. The Government of Pakistan allocated the funds to WHO & UNICEF to help implement the country's polio program. The principal amount of the loan will be repaid by the federal government, while the interest payments will be paid by the Bill & Melinda Gates Foundation, provided loan conditionalities are met. If they are not meet, then the Government will be responsible for the interest payments. The figures represent the annual contribution received by WHO and UNICEF by the government. These funds are Pakistan's domestic contributions towards its program in 2013-2015.

 $^{\rm 12}\,\rm IFFIm$ contribution does not include programme support costs.

13 The impact of reduced Program Support Costs (PSC) is not included in the subtotal, starting in 2006 onwards. In 2012, \$2.4 million is from WHO core contributions vs reduced PSC and thus counted in the total.

¹⁴ The Federal Government of Nigeria took out a \$200 million loan from the World Bank for immunization. In 2015-2016, the government allocated \$8.62 million to WHO and UNICEF to help implement the country's polic program. These funds are part of Nigeria's domestic contributions towards its program in 2015-2016, along with JICA Loan Conversion funds (\$70.28 million) and direct budget support from the Ministry of Health.

¹⁵ As part of its increasing ownership of the polio eradication programme, the Government of India (GoI) is currently funding costs for the procurement and distribution of polio vaccines and covering a range of operational costs. WHO and UNICEF continue to supplement the programme with surveillance, including laboratory procurement, technical assistance and partial operations costs. As of 2013, the Government of India contribution is no longer counted against the GPEI budget.

¹⁶ The Total figures do not reflect any carry-forward from the previous year(s).

As of 1 April 2016
