Total Female	30	13	7	18	72	26	42									
Total Male	44	24	15	15	104	33	52									

Countries in yellow are endemic. Data reported to WHO HQ on 29 July 2019 for 2019 data and 28 July 2020 for 2020 data.

²Wild viruses from environmental samples, selected contacts, healthy children and other sources. Last WPV type 3 had its onset on 10 November 2012. ³Between 27 Sep 2015 and 27 Sep 2016, Nigeria was not classified as endemic, and declared Wild polio-free as of June 2020. ⁴Exceptionally reporting case-contact of a positive index case given the date of collection is later than the onset date of the most recent WPV.
