<sup>\*</sup>Containment Certification Scheme includes three stages of containment certification: (1) Certificate of Participation (CP); (2) Interim Certificate of Containment (ICC); and (3) Certificate of Containment (CC). Facilities may only hold one certificate type at point in time.

<sup>&</sup>lt;sup>†</sup>Facilities are designated by ministries of health or another national authority as serving critical functions requiring the retention of polioviruses. Numbers represent facilities currently designated and does not include those that have withdrawn from the Containment Certification Scheme (CCS) due to cessation of work with poliovirus or otherwise.

<sup>&</sup>lt;sup>‡</sup>'Without' refers to facilities not having ever achieved a CP or whose CP has reached its end-validity.

<sup>§ &#</sup>x27;Expired' refers to facilities whose ICC has reached its end-validity.

<sup>¶</sup>Country has yet to establish a National Authority for Containment.
